

MD Association of Appraisers, Inc.

The Benefits of Belonging to a Professional Appraisal Association

Why Join MAA?

It is more important than ever before Our Profession and the Public We Serve are at Risk

- By not staying connected you risk missing important information on changes and expose yourself to increased liability and jeopardize both your career and the public you serve
- **MAA is the only professional organization in Maryland advocating for "boots on the ground" Real Estate Appraisers and the public they serve at BOTH the State and Federal levels**
- **MAA takes up issues legislatively that affect your livelihood**
- crucial issues at both the state and Federal levels such as the recent increases of the appraisal thresholds **potentially affecting up to 90% of mortgage transactions and conceivably exempting complete market areas from requiring an appraisal; appraisal waivers; bifurcated appraisals; and the increasing use of evaluations, putting the safety of the public, the entire banking system, and our future at risk.**
- **MAA has gone to bat** and continues to work closely with Bright MLS through our member feedback **to restore maximum capabilities and efficiency**
- **Member discounts through our partnerships**

such as **9.5% savings on E&O**, health insurance and software discounts, or on our professional course offerings - but the **benefits go far beyond that**

One of the most valuable aspects of taking on-site education and attending our dinner meetings is the ability to talk amongst your peers and **walk away with local knowledge and valuable insights that put topics into meaningful contexts for the markets in which we work - something online courses just can't provide - no matter how good!**

- **MAA is a founding member of the Network of State Appraisal Organizations** - now 31 and continuing to grow - those in the position to make change at the Federal level now want to meet with those of us affected by these rapidly changing policies and regulations - the working professional field appraisers that deal every day with borrowers, lender requirements, and regulations - **addressing increasing concerns and growing liability of those products and decisions that put the future of our profession and the public at substantially greater risk.**
- **Reduced Dues for all Trainees**
- **The best way to protect yourself and your future is to join the best of your peers** in an organization that stresses high standards and professionalism. We are being heard, but strength comes from numbers
- **It is expensive to maintain a presence** in Annapolis, to join with other state organizations in Washington and around the country, and to continue to develop and offer our numerous high-quality educational offerings. **Please help us to be able to continue helping you and the future of our profession and support MAA.**

Things are happening very quickly - The more we join together - the greater the impact we can have in **stopping these escalating, irresponsible and risky trends that are placing an unsuspecting public and our profession at great risk!**

Reinstatement/setup fees will be waived for all new & lapsed members who renew by January 6th! We sincerely appreciate your membership and welcome you and your colleagues back for 2020!

Beth L. Riedel, President

Maryland Association of Appraisers, Inc
